Email: higor.fmonteiro@gmail.com

Phone: +55 51 98107-8364

Profile:

Senior DevOps Engineer with 15+ years of experience designing, building, and operating production systems. Specialized in AWS, Kubernetes, Infrastructure as Code, and CI/CD automation, with extensive experience supporting large-scale distributed environments for US-based clients.

Proven track record designing multi-account AWS environments, improving deployment reliability, automating infrastructure delivery, and leading production incident response. Strong advocate of operational excellence, observability, and building scalable platforms that enable development teams to deliver software safely and efficiently.

Core Competencies:

- **DevOps & CI/CD:** GitLab CI/CD, AWS CodePipeline, AWS CodeBuild, GitHub Actions
 - **IaC & Automation:** Terraform, Ansible, CloudFormation
 - **Cloud Platforms:** AWS, GCP
 - **Containers & Orchestration:** Kubernetes, Istio Service Mesh, Amazon ECS, Docker
 - **Traffic Management:** Nginx, HTTP/S traffic routing, proxying, and TLS termination
 - **Monitoring & Observability:** Datadog, CloudWatch, New Relic, Dynatrace
 - **Security & Secrets:** AWS IAM, AWS WAFv2, SSM Parameter Store, Secrets Manager
 - **Code Quality & Security:** Checkov, SonarQube (experience in integration with CI/CD)
 - **Scripting & Languages:** Bash, Python
 - **Databases:** RDS, Aurora (PostgreSQL, MySQL), MongoDB
 - **Streaming & Messaging:** Kafka, AWS MSK
 - **Networking & Systems:** Extensive knowledge of networking protocols and systems administration
 - **Methodologies:** Agile, DevOps, SDLC
 - **Leadership:** Team management, mentoring, technical consulting, cross-functional influence
-

Professional Experience:

DevOps Engineer - BairesDev | Feb 2022 - Present

- Designed and managed multi-account AWS cloud infrastructure using reusable Terraform modules, enabling self-service provisioning and reducing infrastructure duplication across teams.
- Architected and standardized CI/CD platform capabilities across multiple engineering teams, reducing release cycle time by 800% and enabling 2–6 daily deployments.
- Led monolith-to-microservices migration, improving scalability and high availability across distributed services.
- Built reusable IaC frameworks using Terraform and Ansible, standardizing deployment workflows and reducing cognitive load for engineering teams.
- Implemented observability stack using Datadog and CloudWatch, improving system reliability, MTTR, and developer feedback loops.
- Designed AWS networking solutions involving Direct Connect, Transit Gateway, VPC endpoints, and PrivateLink connectivity.

- Supported RDS and Aurora (PostgreSQL/MySQL) environments with high availability and automated failover strategies.

SRE Analyst - Banco Inter | Sep 2021 - Feb 2022

- Managed large-scale AWS services (VPC, EKS, ECS, S3, API Gateway, RDS, Lambda, IAM, and MSK).
- Supported highly regulated AWS environments serving 16M+ users with strong security and compliance requirements.
- Created GitLab pipelines with integrated code quality/security scanning.
- Enhanced observability and supported mission-critical, highly regulated systems.

Cloud Architect - KXC Tecnologia | Jun 2020 - Sep 2021

- Architected AWS solutions leveraging Terraform and AWS CI/CD tools (CodePipeline, CodeDeploy).
- Automated deployments with AWS CodePipeline, GitHub, and GitLab, reducing release cycles.
- Executed large-scale cloud migration projects and optimized enterprise workloads.

Tech Lead - Gtek Soluções Tecnológicas | Sep 2017 - Jun 2019

- Led a technical team, managing incidents and on-premises virtualization projects.
- Architected and executed network infrastructure projects.
- Provided IT consulting services and oversaw team operations.

Tech Lead - Intranetworks | Sep 2014 - Aug 2017

- Directed team and incident management, executing on-premises virtualization projects.
- Architected and managed network infrastructure projects.
- Designed and implemented data center infrastructure projects.
- Provided IT consulting and service desk support, while managing network infrastructure.

Education:

Master's Degree in Big Data and Data Intelligence

INSA Barcelona - Business, Marketing & Communication School (2019 - 2020)

Bachelor's Degree in Computer Infrastructure and Network

Senac RS (2013 - 2017)

Certifications

- AWS Certified Advanced Networking – Specialty (2025 - 2028)
- AWS Certified DevOps Engineer - Professional (2024 - 2027)
- AWS Certified Developer - Associate (2023 - 2027)
- AWS Certified SysOps Administrator - Associate (2021 - 2024)
- AWS Certified Cloud Practitioner (2020 - 2027)
- GCP Professional Cloud Architect (2024 - 2026)
- GCP Professional Cloud Developer (2025 - 2027)
- Certified SAFe 6 - Practitioner (2024 - 2025)
- GitLab Certified Associate (2021)
